DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 25, 27, 29-30, 32-35, 42-45 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest an act of storing a synchronization tracker in the logical view table at the synchronization level for each platform, the synchronization tracker maintaining: a version change enumeration corresponding to a synchronized version of a data item in the logical view of the computer system; and a source identifier identifying a particular replica upon which the synchronized version of the data item is based, as detailed in claim 25 and similarly to claim 42. The prior art lacks a logical view table containing a version change enumeration that corresponds to the version of a data item. After careful consideration of the Brief (pages 8-10) filed Nov. 6, 2006, the applicant extensively and specifically pointed out how the claim amendments overcome the prior art of record. Consequently, the claims as amended are allowable over prior art.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
